NOTICE OF APPLICATION OF PESTICIDE

Date: May 12, 2009

Over the past few years Lockport Township High School normally sends out letters and posts on our website a notice informing the community of our plans to spray our property with an herbicide for weed control. This year we want to try something new that will minimize our use of herbicides on school property. Our plan is to only mass spray the perimeter of the property. Note of the athletic fields at any of our sites will be sprayed at this time. This practice will minimize our use of herbicides on school property.

This notice is to inform you of the dates that we plan on spraying for weeds on school property. The herbicide application for this spring is scheduled to take place on May 16th. Only the perimeter of the East Campus will be sprayed at this time. The product that we will be using is called TRUPOWER.

NO ATHLETIC FIELDS WILL BE SPRAYED.

If you have any further questions or would like to see the Material Safety Data Sheets for this product, please call the District office at 815 588-8110 for additional information.

Best regards,

Bill Thompson
Director of Facilities Management
