

Required Reading AP Macroeconomics
Summer 2010

In an effort to prepare for Advanced Placement Macroeconomics, you should read the following selection:

1. Wheelan, Charles. Naked Economics. ISBN 0-393-32486-9

The book serves as an introduction to Economics without complex graphs or equations. This synthesis of economic principles with contemporary society will be invaluable to an AP student.

- As you read this selection, take notes on each chapter.
- A reading comprehension test will be administered the first week of class. Second semester students will take the exam in January.
- Students may use their **hand-written** notes on the exam.
- One can expect a free response question from each chapter in the book.

Good luck! And we look forward to seeing you in August.

Mr. Lessner
